

Introducing Connington

Connington is a specialist Learning Disability and Autism supported living home based in the London Borough of Waltham Forest. We offer a specialist robust and enabling care pathway to adults with complex presentations. Each flat is independent and has its own entry system.

Our experienced management team are eager to understand your placement needs and help you utilise the vacancies at Connington, which can be customised to meet individual needs.

Services we provide include:

- Bespoke activity programmes
- Support in personal goals
- Developing relationships
- Regular social events
- Independent living skills
- Person centred framework
- Outings & Trips

Our specialist offer:

- Positive Behaviour Support
- Occupational Therapy
- Speech and Language Therapy
- Proact-Scipr-UK trained staff
- Bespoke Support Plans

"My focus is on a holistic approach to care and support, fully embedding a person-centred proactive way of working. I have a real passion for an outcomes-based model of support to enable the people we support to reach their goals; as their goals are our goals."

Brett Rutter
Home Manager, Connington

Facilities:

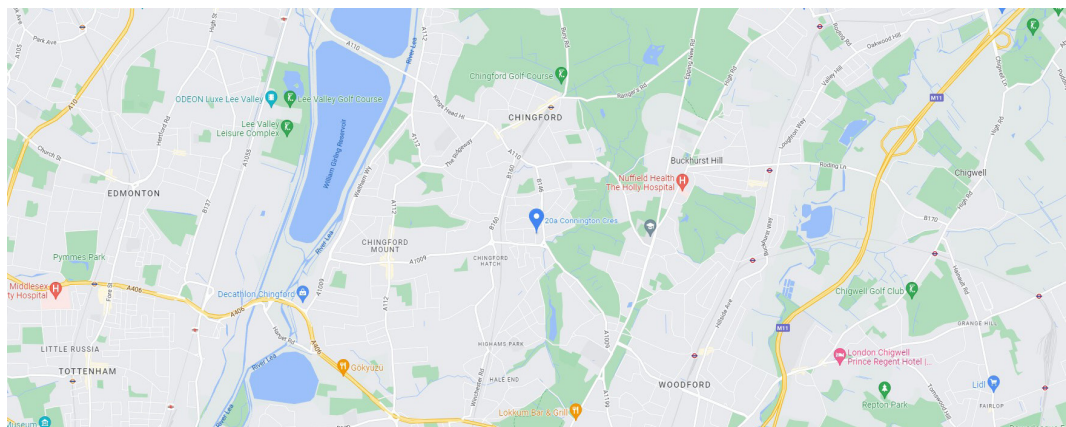

Connington Court is a shared supported living home for six people with a variety of different needs. All on one level, this ground floor property is perfect for people with additional mobility needs. Connington House is a supported living home that accommodates eleven people in flats spread across three floors with lift access. Each flat is independent and has its own entry system. Both homes are fully equipped with contemporary communal areas, large garden areas, internet and all rooms have modern en-suites.
