Committed to Co-Production

We have an established Influencers Group, made up of people we support, who play a pivotal role in shaping our services. Their insight ensures that everything we do reflects the needs, preferences, and aspirations of those with lived experience.

By actively listening to and involving this group, we embed authentic perspectives into every aspect of our work. From reviewing policies and practices to shaping key working approaches and designing new living opportunities, their voices directly influence how we develop and improve our support.

Every Day, We Help People Thrive

Our Outcomes Pathway Model ensures support is designed with and for each person, creating tailored strategies shaped around their hopes, goals, and aspirations.

This multidisciplinary approach enables us to deliver high-quality, personalised support so people can achieve what matters most to them.

Progress that Matters, Led by the People We Support

When Harry's previous home closed, he was left facing an uncertain future. His complex needs had not been fully met, limiting his independence and preventing him from living the active, meaningful life he deserved. But moving to Totteridge marked a turning point.

Before Harry arrived, the team proactively adapted the environment to ensure Totteridge could genuinely become his home. Recognising that he lived with a health condition they had not managed before, the team undertook specialist training in advance - equipping themselves with the skills and confidence to deliver the highest standard of personalised care from day one. These foundations allowed Harry not only to settle safely, but to begin building a more fulfilling, engaged, and self-directed life.
