Co-Production

We're proud to have an established Influencers Group, made up of supported individuals from our homes. This group plays a pivotal role in shaping our plans, ensuring they are genuinely aligned with the needs and aspirations of all those living in a Liaise home.

By listening to people with lived experience, we bring an enriched, authentic perspective to everything we do. From policy and practice reviews to designing new homes, their voices directly influence our approach to key working, goal setting, and designing services.

Our commitment to co-production means creating meaningful partnerships that drive inclusion and deliver homes truly tailored to those we support.

Improving Lives

Built on the principles of Positive Behaviour Support (PBS) and Proact-SCIPr-UK training, our approach prioritises respect for individual needs, promotes independence, and ensures safety and well-being.

We go beyond standard care by equipping all team members with specialist PBS training, guided by the expertise of PBS Practitioners. Our approach enables us to deliver high-quality, tailored support that drives meaningful outcomes for the people we support.

Our Outcomes Pathway Model helps us design bespoke care strategies based on each person’s hopes, goals, and aspirations.

Outcomes Based Success

When David arrived at Salcasa, he struggled to trust others and communicate, having spent over 18 months in a restrictive hospital setting with little community contact. His behaviour was unpredictable, and he often engaged in obsessive and self-injurious actions.

Seven years on, David has made remarkable progress. His vocabulary has grown, harmful behaviours have significantly reduced, and he now enjoys meaningful moments - most recently celebrating his birthday with his parents, fully engaged and smiling throughout.
