Experience you can trust, support you can rely on

Our London residential and supported living homes provide specialist, bespoke support for adults with learning disabilities and autistic people, including those with complex needs and behaviours of concern. Backed by over 20 years of expertise, we combine Positive Behaviour Support (PBS) and Speech and Language Therapy (SALT) to deliver truly person-led care.

Why choose us?

Tailored Living - Our home offers spacious and calming environments designed around individual needs. Nearby amenities include open green spaces and High Wycombe town centre.

Co-Produced, Person-Led Support - Shaped by people with lived experience, we build care plans around each person's strengths and goals - like supporting someone with a passion for art to lead classes.

Expert, Caring Team - All our staff are trained in Positive Behaviour Support (PBS) and Proact-SCIPr-UK. Each person we support has a tailored PBS plan, with input from our in-house PBS Practitioners, Speech and Language Therapists, and Occupational Therapists.

Our Available First Floor Bedroom Offers:

- **Fully-Furnished Bedroom:** Includes a double bed, dresser, wardrobe, and a table and chairs.
- **Private En-Suite Bathroom:** With a sink, toilet and a bathtub.
- **Natural Light:** The room benefits from two windows that fill the space with natural light and offer a pleasant view of the back garden.

Meet the team

Suzanne, Regional General Manager for London

Suzanne brings over 28 years of social care experience, including senior roles with the Active Care Group. She is committed to delivering outstanding outcomes and leads by example, creating supportive, high-quality environments for both the people we support and her colleagues.

Helen, Operations Manager for London

Since 2007, Helen has led social care services to achieve strong outcomes, building high-performing, values-led teams that deliver exceptional support.

Angela, Registered Manager at Lucas House and Totteridge House

Angela brings 35 years of experience in care, spanning older adults, learning disabilities, and mental health. With a background at the Epilepsy Society and Autism Care UK, she is passionate about creating a homely environment.

Co-production

We're proud to have an established Influencers Group, made up of people we support. This group plays a pivotal role in shaping our plans, ensuring they are genuinely aligned with the needs and aspirations of all those living in a Liaise home.

By listening to people with lived experience, we bring an enriched, authentic perspective to everything we do. From policy and practice reviews to designing new homes, their voices directly influence our approach to key working, goal setting, and designing homes.

Our commitment to co-production means creating meaningful partnerships that drive inclusion and deliver homes truly tailored to those we support.

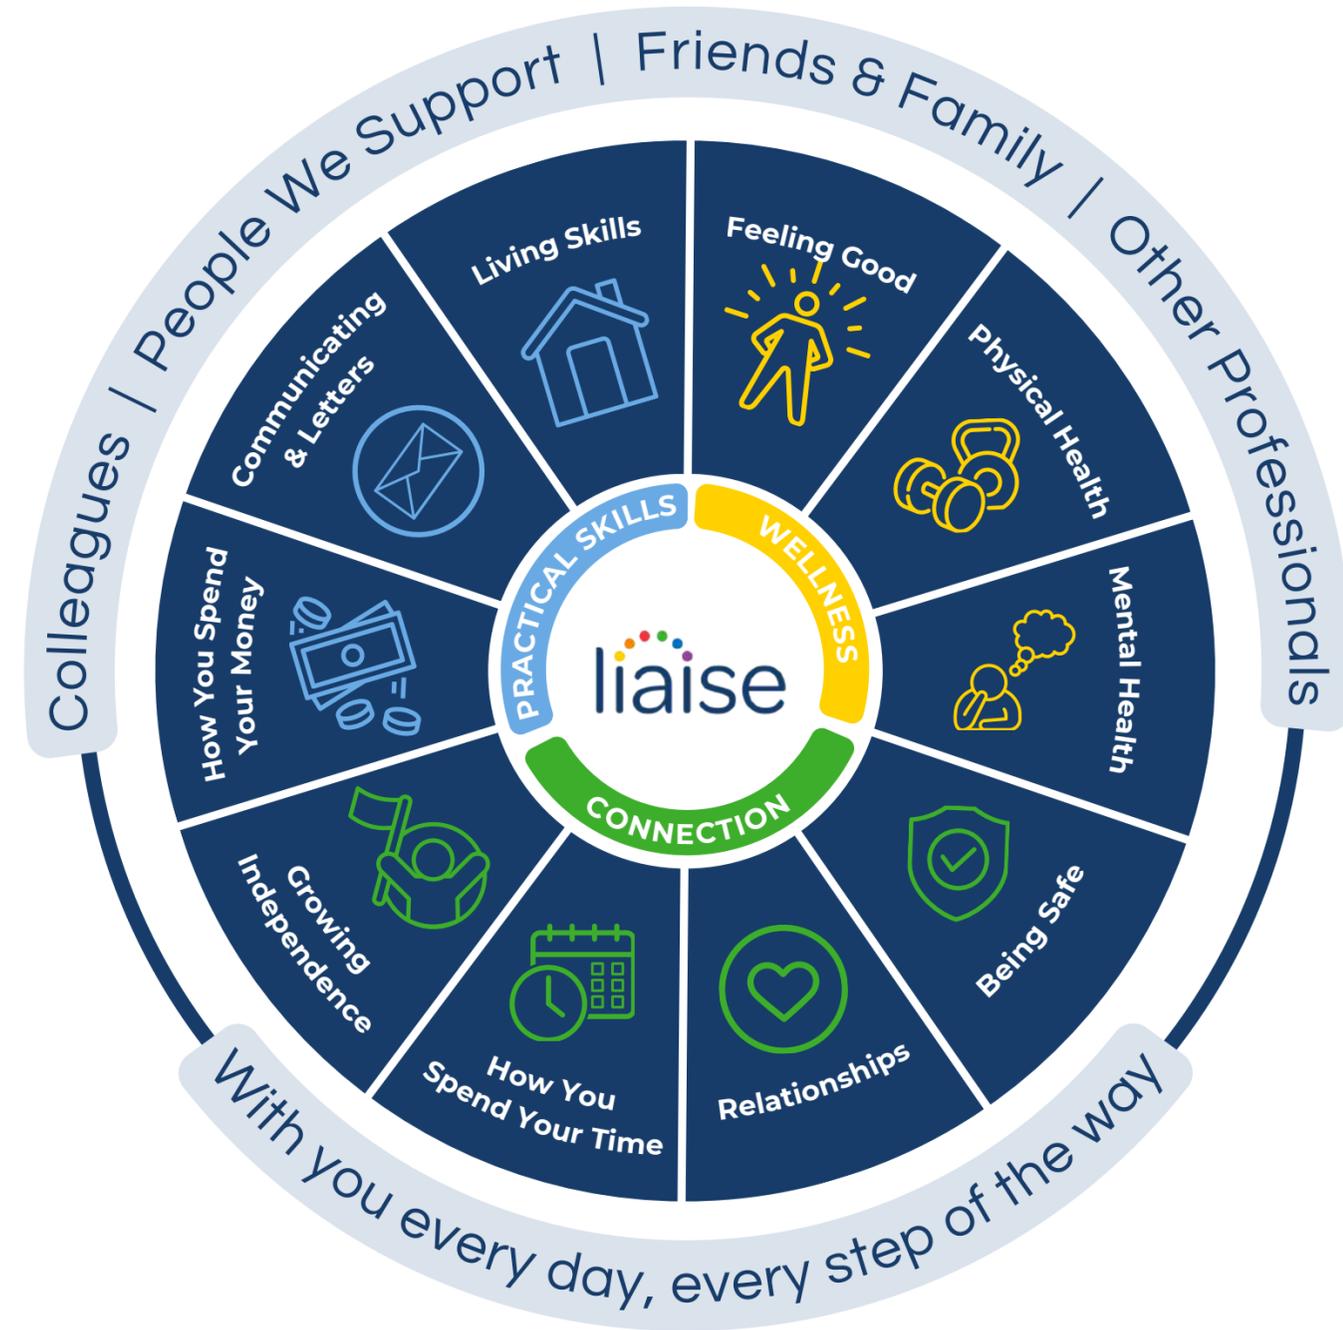

Improving lives

Built on the principles of Positive Behaviour Support (PBS) and Proact-SCIPr-UK training, our approach prioritises respect for individual needs, promotes independence, and ensures safety and well-being.

We go beyond standard care by equipping all team members with specialist PBS training, guided by the expertise of PBS Practitioners, Speech and Language Therapists, and Occupational Therapists. This collaborative approach enables us to deliver high-quality, tailored support that drives meaningful outcomes for the people we support.

Our Outcomes Pathway Model helps us design bespoke care strategies based on each person’s hopes, goals, and aspirations.

Outcomes Based Success

When Harry's previous home closed, he faced an uncertain future. His complex needs had not been fully supported, preventing him from living the active and fulfilling life he deserved. But moving to Totteridge changed everything.

Before his arrival, the team made important adaptations to ensure that Totteridge could truly be his home. Understanding that Harry had a health condition our team had never managed before, they took the time to receive specialist training, ensuring the team could provide him with the best possible care.
