Experience you can trust, support you can rely on

We support adults with learning disabilities and autistic people, including those with complex needs and challenging behaviour, in residential care and supported living homes across the South and East of England

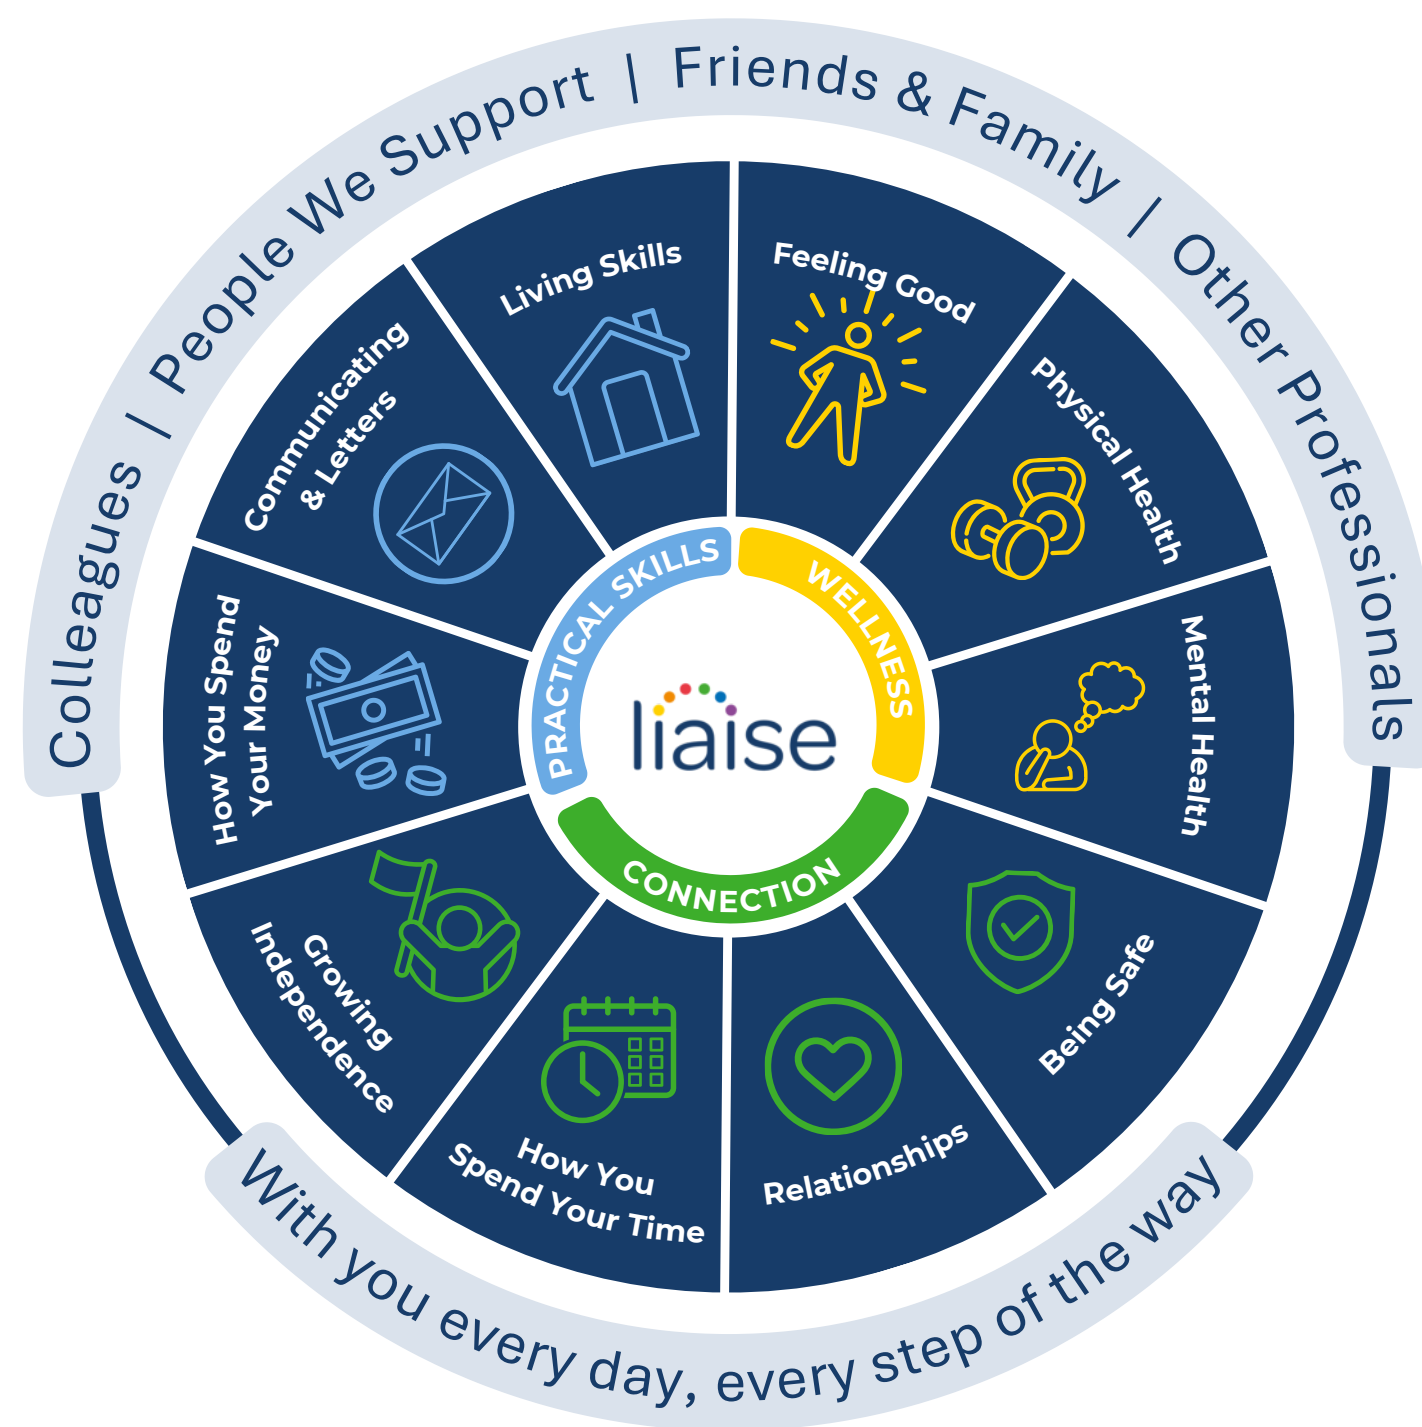

Improving Lives

Built on the principles of Positive Behaviour Support (PBS) and Proact-SCIPr-UK training, our approach prioritises respect for individual needs, promotes independence, and ensures safety and well-being.

We go beyond standard care by equipping all team members with specialist PBS training, guided by the expertise of PBS Practitioners, Speech and Language Therapists, and Occupational Therapists. This collaborative approach enables us to deliver high-quality, tailored support that drives meaningful outcomes for the people we support.

Our innovative Outcomes Pathway Model (right) helps us design bespoke care strategies based on each person's unique hopes, goals, and aspirations.

Co-production

We're proud to have an established Influencers Group, made up of supported individuals from our homes. This group plays a pivotal role in shaping our plans, ensuring they are genuinely aligned with the needs and aspirations of all those living in a Liaise home.

By listening to people with lived experience, we bring an enriched, authentic perspective to everything we do. From policy and practice reviews to designing new homes, their voices directly influence our approach to key working, goal setting, and designing services.

Our commitment to co-production means creating meaningful partnerships that empower individuals, drives inclusion, and deliver homes truly tailored to those we support. Together with our Influencers, we're making Liaise the best possible place to live - a place where everyone's voice shapes the future.
