

Cornfields

A residential care home in
Basingstoke, Hampshire

RG23 8HD

Experience you can trust, support you can rely on

We support people with a learning disability, autistic people, and people with complex needs and behaviours that challenge, in residential care and supported living homes across London, the South and East of England.

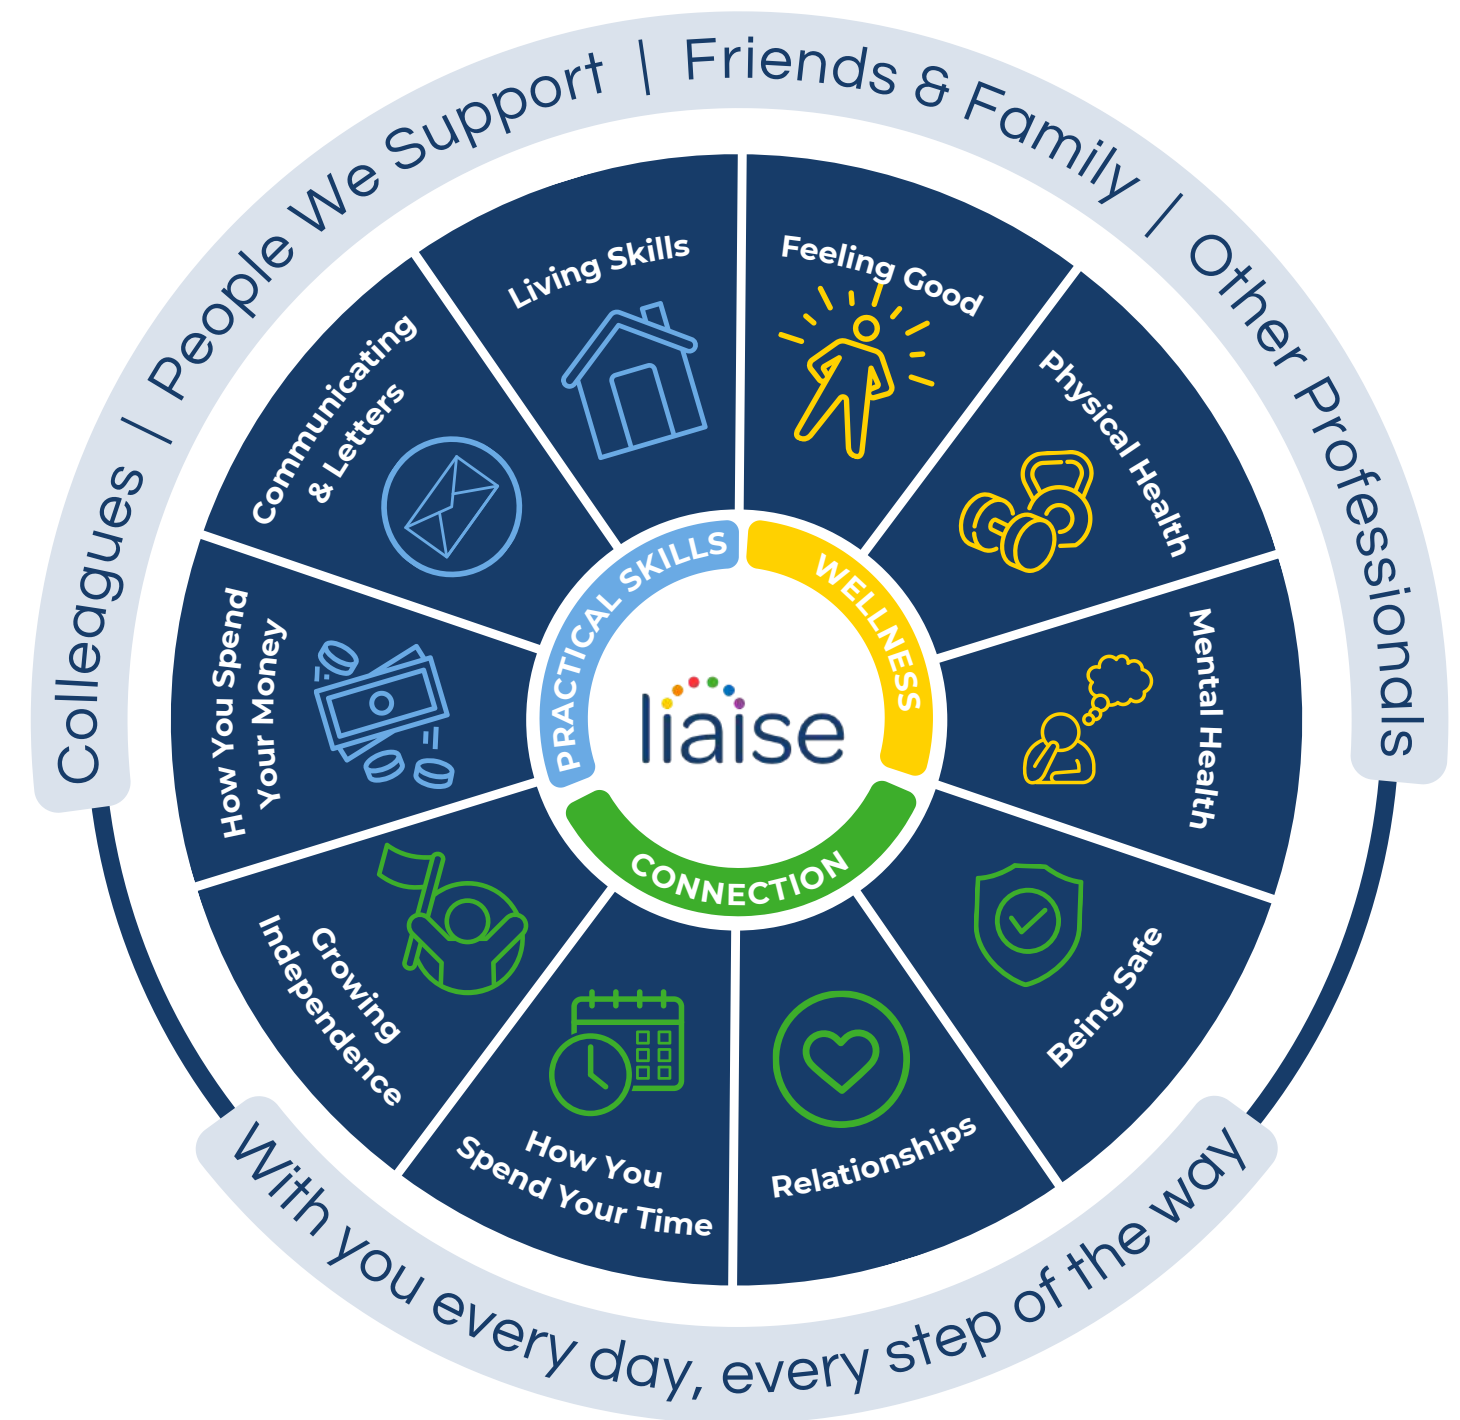

Improving Lives

Built on the principles of Positive Behaviour Support (PBS) and Proact-SCIPr-UK training, our approach prioritises respect for individual needs, promotes independence, and ensures safety and well-being.

We go beyond standard care by equipping all team members with specialist PBS training, guided by the expertise of PBS Practitioners, Speech and Language Therapists, and Occupational Therapists. This collaborative approach enables us to deliver high-quality, tailored support that drives meaningful outcomes for the people we support.

Our innovative Outcomes Pathway Model (right) helps us design bespoke care strategies based on each person's unique hopes, goals, and aspirations.

Co-production

We're proud to have an established Influencers Group, made up of supported individuals from our homes. This group plays a pivotal role in shaping our plans, ensuring they are genuinely aligned with the needs and aspirations of all those living in a Liaise home.

By listening to people with lived experience, we bring an enriched, authentic perspective to everything we do. From policy and practice reviews to designing new homes, their voices directly influence our approach to key working, goal setting, and designing services.

Our commitment to co-production means creating meaningful partnerships that empower individuals, drives inclusion, and deliver homes truly tailored to those we support. Together with our Influencers, we're making Liaise the best possible place to live - a place where everyone's voice shapes the future.

Outcomes Based Success

Neil's Supported Environment

Neil is a person we support in Hampshire and is really thriving. Thanks to the support he receives, Neil has been able to develop some essential life skills. He's now assisting with preparing his own meals, navigating public transport, and participating in community activities.

Neil particularly enjoys picking up a coffee and a newspaper, before going to the local library to complete his daily word search. He is supported to be more and more independent every day.

His family have said "Neil is happy and thriving in this environment and we feel sure that he will continue to do well in the future."

Charlotte's Move to Cornfields: A Joyful New Beginning

Charlotte is one of the people that has recently moved into a Liaise home. Charlotte was assessed earlier this year, and it was clear from the start that she would be a perfect fit for Cornfields. She came to visit the home a couple of weeks later, which also happened to be her birthday! Charlotte instantly loved the kitchen and her future bedroom, and by the end of her visit, she told us she would love to live here.

“ A learning disabilities nurse visited and was really impressed with the work done on the PBS plans. He mentioned that there was so much detailed information and that the person's behaviour had been outlined very well. He asked me to pass on his compliments to the team.
