# Co-production

We're proud to have an established Influencers Group, made up of people we support. This group plays a pivotal role in shaping our plans, ensuring they are genuinely aligned with the needs and aspirations of all those living in a Liaise home.

By listening to people with lived experience, we bring an enriched, authentic perspective to everything we do. From policy and practice reviews to designing new homes, their voices directly influence our approach to key working, goal setting, and designing homes.

Our commitment to co-production means creating meaningful partnerships that drive inclusion and deliver homes truly tailored to those we support.

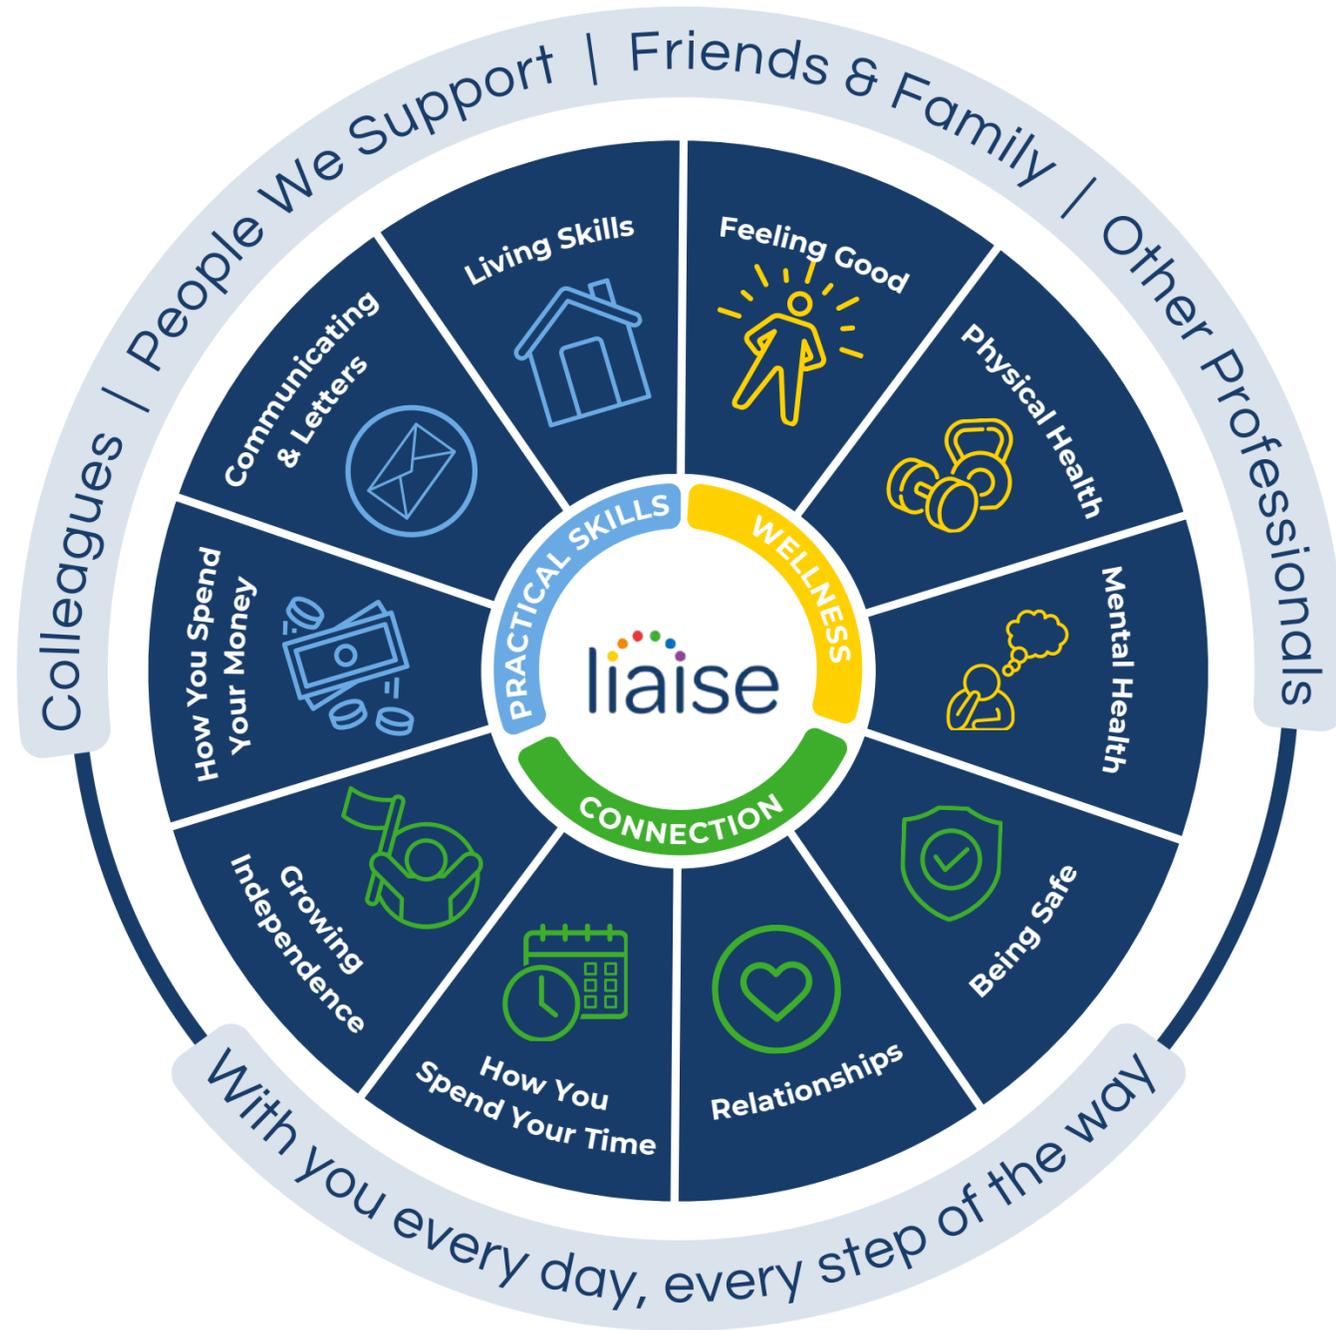

# Improving lives

Built on the principles of Positive Behaviour Support (PBS) and Proact-SCIPr-UK training, our approach prioritises respect for individual needs, promotes independence, and ensures safety and well-being.

We go beyond standard care by equipping all team members with specialist PBS training, guided by the expertise of PBS Practitioners. Our approach enables us to deliver high-quality, tailored support that drives meaningful outcomes for the people we support.

Our Outcomes Pathway Model helps us design bespoke care strategies based on each person’s hopes, goals, and aspirations.

# Outcomes Based Success

Charlotte is one of the newest people to move into a Liaise home.

When she was assessed earlier this year, it was clear from the outset that Cornfields would be a great match for her. She visited the home a couple of weeks later - on her birthday, no less - and immediately fell in love with the kitchen and the room that would become her bedroom. By the end of her visit, Charlotte told us with a big smile that she would love to live here.
