Committed to Co-Production

We have an established Influencers Group, made up of people we support, who play a pivotal role in shaping our services. Their insight ensures that everything we do reflects the needs, preferences, and aspirations of those with lived experience.

By actively listening to and involving this group, we embed authentic perspectives into every aspect of our work. From reviewing policies and practices to shaping key working approaches and designing new living opportunities, their voices directly influence how we develop and improve our support.

Every Day, We Help People Thrive

Our Outcomes Pathway Model ensures support is designed with and for each person, creating tailored strategies shaped around their hopes, goals, and aspirations.

This multidisciplinary approach enables us to deliver high-quality, personalised support so people can achieve what matters most to them.

Progress that Matters, Led by the People We Support

Maintaining meaningful relationships with family is an important part of Michael's life, and recently he chose to take a thoughtful step to stay connected to someone very special - his grandmother.

Michael decided he wanted to write to her, thanking her for inviting him and his support staff to lunch the week before. With gentle support, he led the activity from start to finish: writing the message he wanted to share, choosing a favourite photo of the two of them taken by staff during the visit, and preparing the envelope. After completing his letter, Michael chose to walk with staff to post it himself, turning the activity into a meaningful outing. This moment captures several important outcomes - Michael communicating in a purposeful way, maintaining a cherished family relationship and taking the lead in completing each step.
