Supported Living in
Littleport, Cambridgeshire

Specialist Support From Day One

We provide bespoke support for adults with **learning disabilities** and **autistic people**, including those with **complex needs**, **behaviours of distress** and **experiencing mental health conditions**. Our approach is rooted in **Positive Behaviour Support (PBS)** and **PROACT-SCI Pr-UK**, ensuring support that is person-led and focused on promoting independence and wellbeing.

We have dedicated **in-house PBS Practitioners** and all team members receive **non-restrictive PBS and PROACT-SCI Pr-UK training**. This collaborative model enables us to deliver support that leads to meaningful progress, always driven by what matters most to the people we support.

Committed to Co-Production

We have an established Influencers Group, made up of people we support, who play a pivotal role in shaping our services. Their insight ensures that everything we do reflects the needs, preferences, and aspirations of those with lived experience.

By actively listening to and involving this group, we embed authentic perspectives into every aspect of our work. From reviewing policies and practices to shaping key working approaches and designing new living opportunities, their voices directly influence how we develop and improve our support.

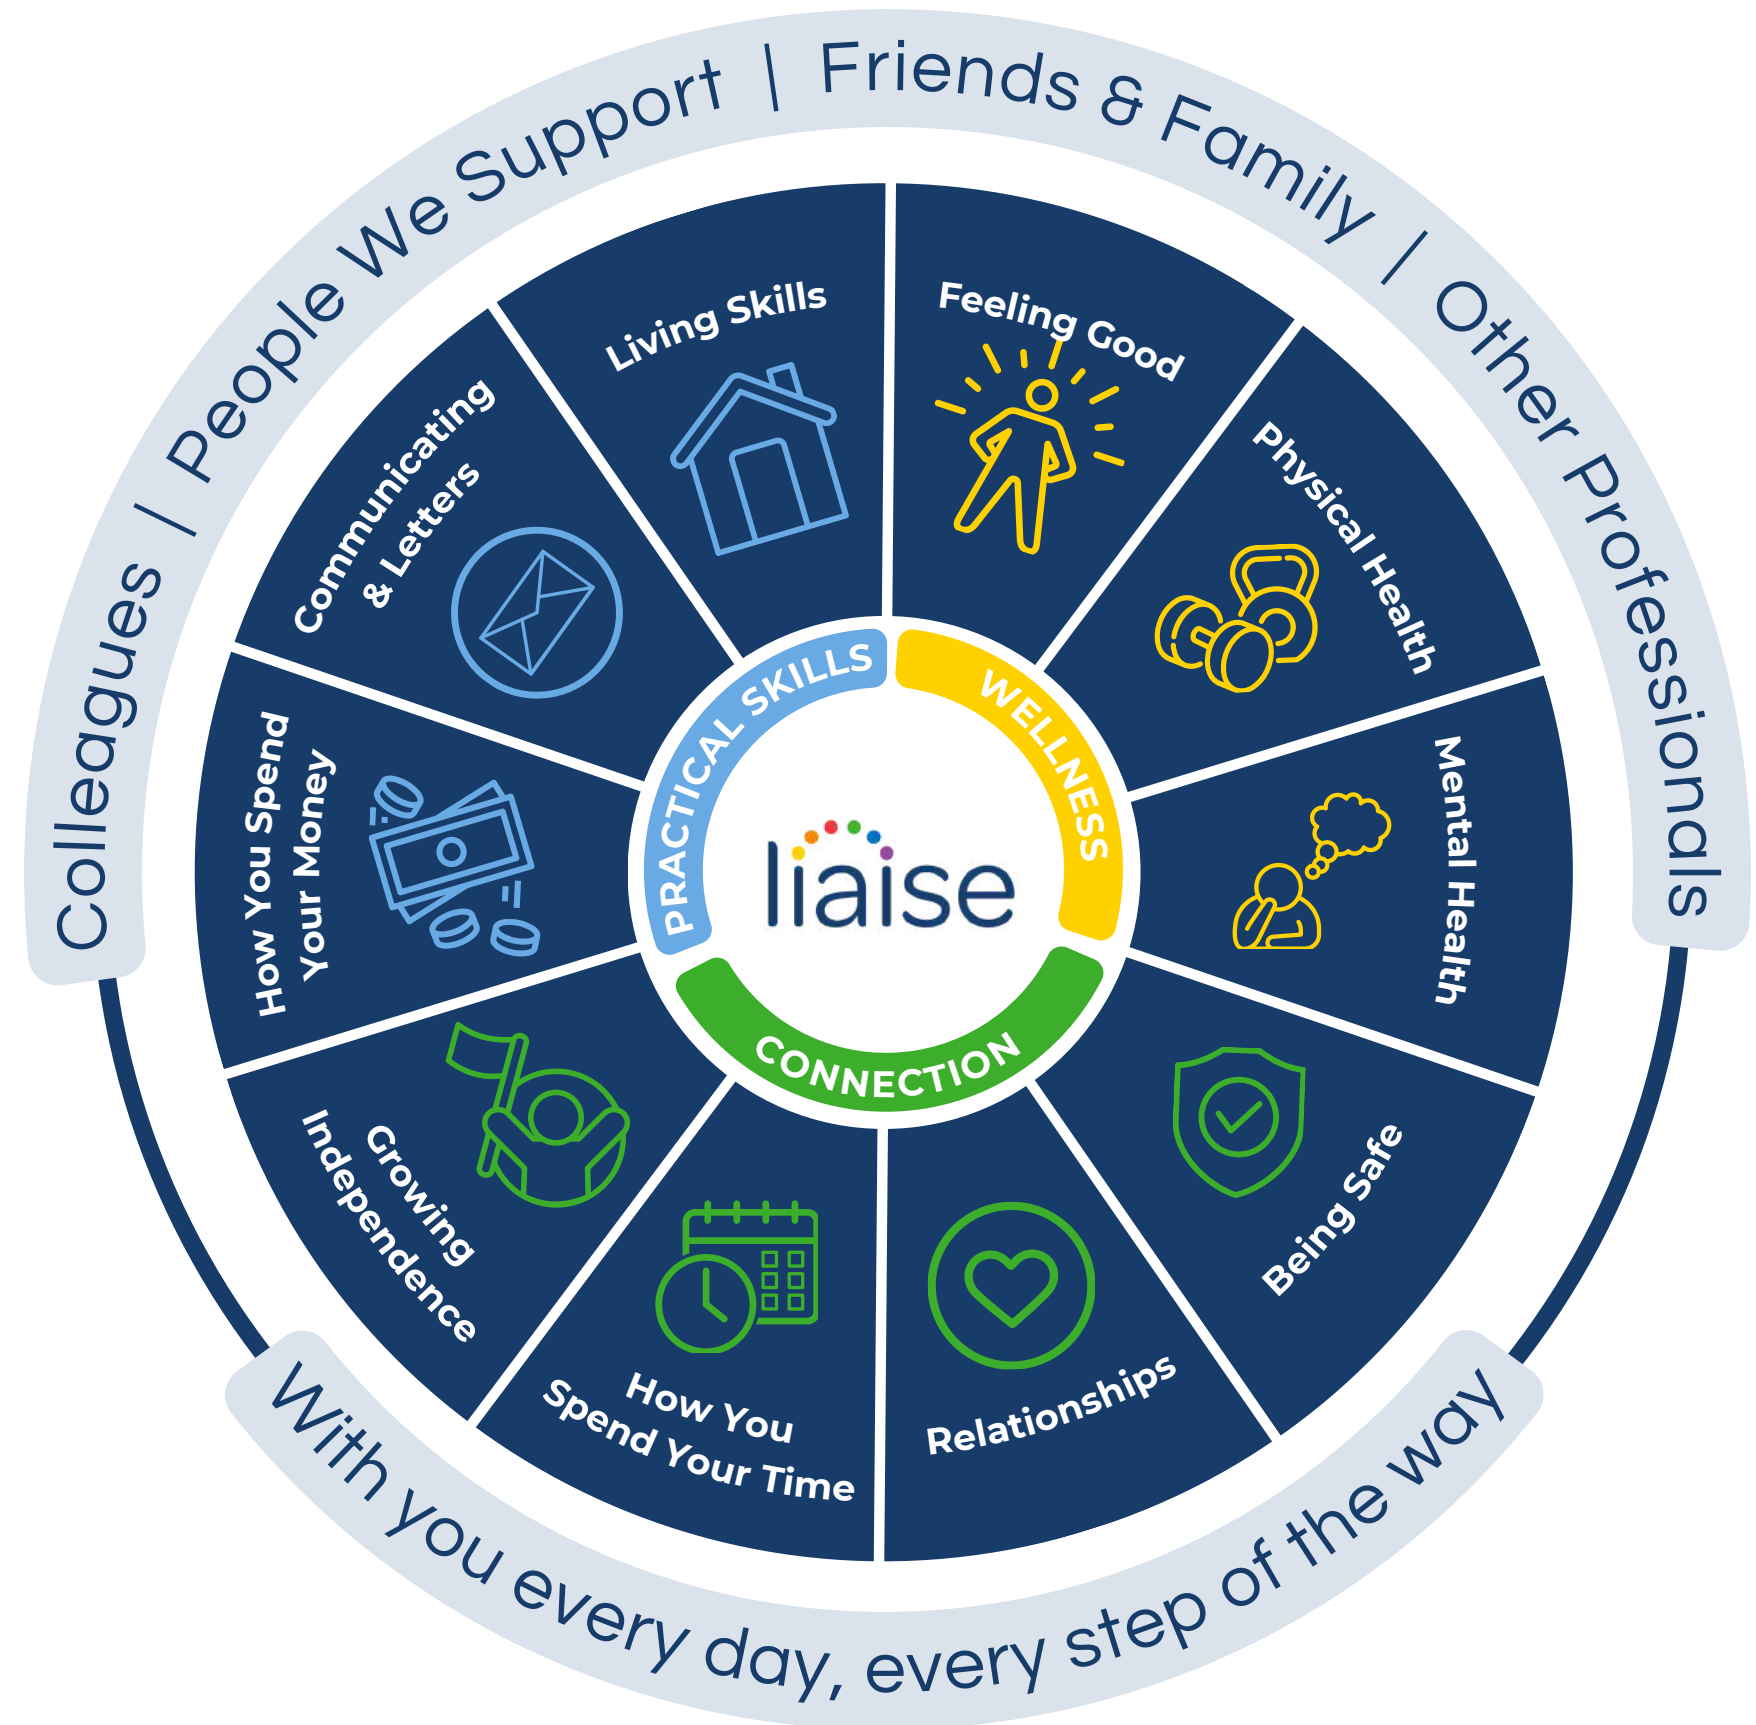

Every Day, We Help People Thrive

Our Outcomes Pathway Model ensures support is designed with and for each person, creating tailored strategies shaped around their hopes, goals, and aspirations.

This multidisciplinary approach enables us to deliver high-quality, personalised support so people can achieve what matters most to them.

Progress that Matters, Led by the People We Support

Alex* recently moved into one of our supported living services after a long inpatient stay. Commissioners and social workers shared that Alex benefitted from a meticulously planned, person-led transition that ensured they felt understood, safe, supported and in control from day one. Our specialist teams spent time with Alex during their inpatient stay to understand their needs, communication style, challenges and aspirations. This preparation made their move into the community positive and empowering. A familiar, consistent team provided immediate reassurance, structure and skilled, paced support tailored to Alex's needs.

Alex's first 12-week review highlighted the strong progress already made, prompting a discussion about hours and celebrating their achievements. A standout moment was planning and completing an independent train journey - something Alex approached with pride and growing self-belief.
