Specialist Support From Day One

We provide specialist, bespoke support for adults with learning disabilities and autistic people, including those with complex needs and behaviours of distress.

Our approach is rooted in **Positive Behaviour Support (PBS)** and **PROACT-SCIPr-UK**, ensuring support that is person-led and focused on promoting independence and wellbeing. All team members receive **PBS** and **PROACT-SCIPr-UK** training tailored to the needs of the people they support. This collaborative model enables us to deliver support that leads to meaningful progress, always driven by what matters most to the people we support.

Committed to Co-Production

We have an established Influencers Group, made up of people we support, who play a pivotal role in shaping our services. Their insight ensures that everything we do reflects the needs, preferences, and aspirations of those with lived experience.

By actively listening to and involving this group, we embed authentic perspectives into every aspect of our work. From reviewing policies and practices to shaping key working approaches and designing new living opportunities, their voices directly influence how we develop and improve our support.

Every Day, We Help People Thrive

Our Outcomes Pathway Model ensures support is designed with and for each person, creating tailored strategies shaped around their hopes, goals, and aspirations.

This multidisciplinary approach enables us to deliver high-quality, personalised support so people can achieve what matters most to them.

Progress that Matters, Led by the People We Support

Charlotte has made excellent progress towards her goal of using public transport to access her local community. With support from staff, she gradually built her confidence by learning bus routes, understanding timetables, and practising short journeys.

Although initially anxious, Charlotte showed determination and resilience as she worked towards her goal. She now travels by bus with greater confidence, uses her own bus pass, and is supported to access weekly shopping trips and visits to the city.

This achievement has increased Charlotte's independence and opened up more opportunities for her to enjoy activities in her local community.
