Specialist Support From Day One

We provide bespoke support for adults with **learning disabilities** and **autistic people**, including those with **complex needs**, **behaviours of distress** and **experiencing mental health conditions**. Our approach is rooted in **Positive Behaviour Support (PBS)** and **PROACT-SCIPr-UK**, ensuring support that is person-led and focused on promoting independence and wellbeing.

We have dedicated in-house **PBS Practitioners** and all team members receive **PBS** and **PROACT-SCIPr-UK** training tailored to the needs of the people they support. Committed to Co-Production

We have an established Influencers Group, made up of people we support, who play a pivotal role in shaping our services. Their insight ensures that everything we do reflects the needs, preferences, and aspirations of those with lived experience.

By actively listening to and involving this group, we embed authentic perspectives into every aspect of our work. From reviewing policies and practices to shaping key working approaches and designing new living opportunities, their voices directly influence how we develop and improve our support.

Every Day, We Help People Thrive

Our Outcomes Pathway Model ensures support is designed with and for each person, creating tailored strategies shaped around their hopes, goals, and aspirations.

This multidisciplinary approach enables us to deliver high-quality, personalised support so people can achieve what matters most to them.

Progress that Matters, Led by the People We Support

Katerina engaged in a wide range of meaningful, person-centred activities that supported her independence, wellbeing, and enjoyment.

She took part in baking sessions, where she demonstrated good focus and engagement, actively participating in each stage of the process. She particularly enjoyed the sensory elements, such as handling ingredients and exploring textures. Katerina also accessed community activities, including bowling, where she engaged well, showed interest, and benefited from the social environment.

To support her wellbeing, Katerina attended spa sessions, where she appeared calm, relaxed, and comfortable, enjoying the soothing sensory experience. She also participated in gardening activities, helping to plant and care for flowers, showing interest and benefiting from time outdoors in a peaceful setting.
