Committed to Co-Production

We have an established Influencers Group, made up of people we support, who play a pivotal role in shaping our services. Their insight ensures that everything we do reflects the needs, preferences, and aspirations of those with lived experience.

By actively listening to and involving this group, we embed authentic perspectives into every aspect of our work. From reviewing policies and practices to shaping key working approaches and designing new living opportunities, their voices directly influence how we develop and improve our support.

Every Day, We Help People Thrive

Our Outcomes Pathway Model ensures support is designed with and for each person, creating tailored strategies shaped around their hopes, goals, and aspirations.

This multidisciplinary approach enables us to deliver high-quality, personalised support so people can achieve what matters most to them.

Progress that Matters, Led by the People We Support

Ike enjoyed taking part in the recycling this week. He showed interest and enthusiasm as he helped sort materials and place items into the correct recycling bins. Ike remained engaged throughout the task, taking pride in being involved in something that helps his home and the environment.

This activity supported his independence and living skills by giving him the chance to take responsibility for part of the household routine. Working alongside Abiola also helped strengthen communication and positive relationships, as they talked together about the task and completed each step as a team. Ike's involvement also encouraged awareness of safety and the environment, helping him understand the importance of recycling and contributing to his community.
